

Badges of the Branch

In the beginning,

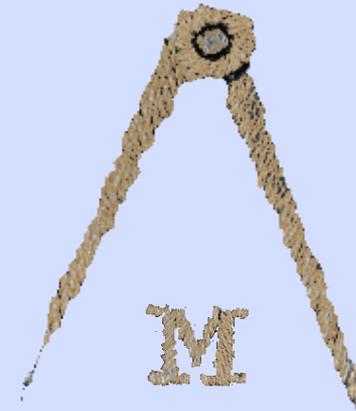

then came...

...and the latest.

Q Met

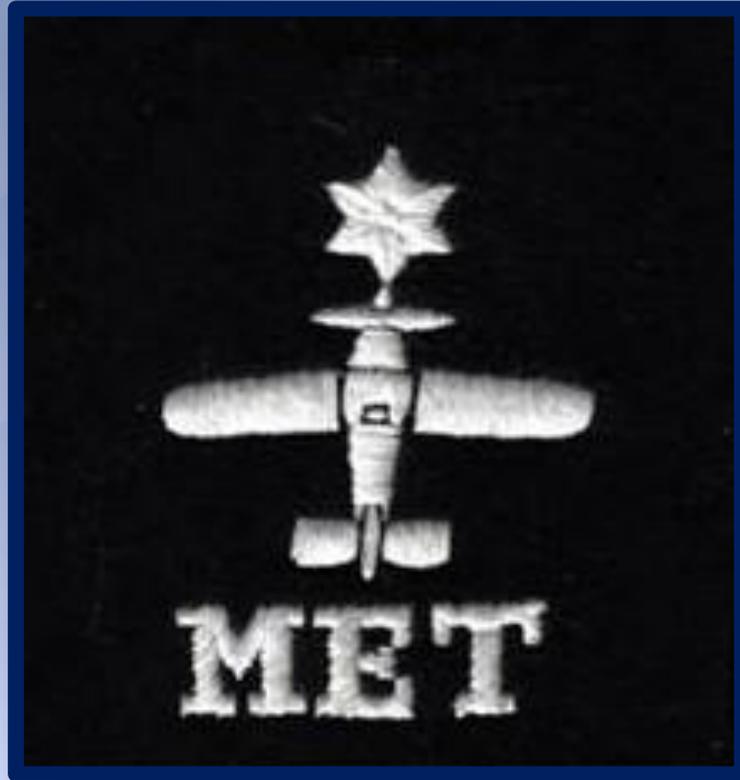

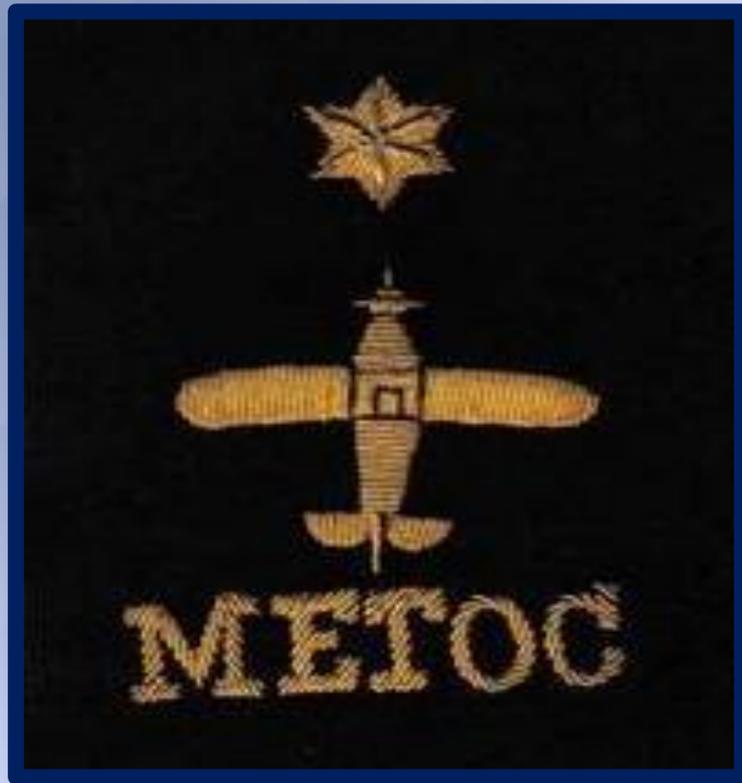

First there wasn't a badge.

Then came the dividers badge with or without M for MET.
Pictures show this badge developed with time to have stars.

Examples of this badge are extremely rare.

MET eventually became...

METOC

METOC became...

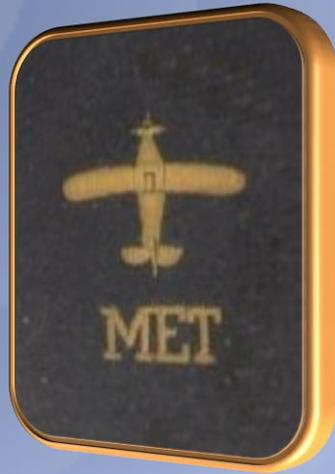

OMHM

So what's next?

Will it be back to basics?

A resurrection of METOC with something else?

Tri-service?
